TCC-THE CHAIR COMPANY BÜRO KOLTUK SAN. VE TİC. A.Ş.

1880 yılında Almanya'nın Amberg kentinde Willibald Grammer tarafından kurulan GRAMMER AG firmasının bünyesinde faaliyetlerine başlamıştır. Ülkemizde, 1985 yılında Bursa'da kurduğu modern entegre tesislerinde en ileri Alman teknolojisi ile Türkiye'de ilk amortisörlü koltuğun üretimine başlamıştır. 2014 yılında Anonim Şirket statüsüne geçip TCC-The Chair Company Büro Koltuk San. ve Tic. A.Ş. unvanını alarak Nowy Styl bünyesine dâhil olmuştur. Grammer Office, TCC, Grammer Office Projects markaları altında toplanan zengin ürün portföyü ile, ofis, konferans, sinema, tiyatro, oditoryum, derslik, stadyum ve terminaller için oturma çözümleri sunmaktadır.

Started its operations as a part of GRAMMER AG, founded in the year 1880 by Willibald Grammer In Amberg, Germany. In 1985 we established our fully integrated facilities in Bursa with the most advanced German technology and manufactured the first Office Chair with a gas lift of Turkey. In 2014, TCC-The Chair Company Büro Koltuk San. Tic. A.Ş. became a member of Nowy Styl. We produce and distribute seating solutions for offices, conferences, cinemas, theaters, auditoriums, classrooms, stadiums and terminals with our well-known brands Grammer Office, TCC and Grammer Office Projects.

1880 - 2025

145 yıldır
aynı tutku ve heyecan ile
sadece koltuk üretiyoruz...

Over 145 years
*we **only produce seats** with the*
same passion and excitement...

TCC The Chair Company

Klasik mekanizmalara sahip ofis koltukları

Office chairs with conventional mechanisms

GRAMMER office

Dünya çapında patentli Glide-Tec® teknolojisine sahip ofis koltukları

Office chairs with worldwide patented Glide-Tec® technology

NowyStyl

Ofis ve kamusal alanlar için kapsamlı mobilya çözümlerinde Avrupa lideri marka. Benzersiz iş modeli sayesinde, müşterilerin ihtiyaçlarının, verimliliğinin, iş organizasyonunun, ergonominin ve akustiğin derinlemesine analizine dayanan mükemmel bir iç dekorasyon hizmeti sunar. Tecrübesi, teknoloji ve üretim tesisleri ile her teklifin "kişiye özel" olmasını sağlar.

European leader in comprehensive furniture solutions for office and public spaces. Thanks to it's unique business model, the brand offers an excellent interior furnishing service based on in-depth analysis of clients' needs, efficiency, work organisation, ergonomics and acoustics. The experience as well as technological and production facilities ensure that every offer is "tailor-made."

GRAMMER office projects

Konferans, tiyatro, sinema, oditoryum, derslik, stadyum, terminal ve çok amaçlı salon koltukları

Seating solutions for conference, theatre, cinema, auditorium, classroom, stadium, terminal and multi-purpose halls

Klasik ofis koltuğu mekanizmaları ile Glide-Tec® teknolojili mekanizmanın karşılaştırılması.

Comparison of the Glide-Tec® mechanism with classic office chair mechanisms.

GLIDE-TEC® TEKNOLOJİSİ

GLIDE-TEC® TECHNOLOGY

Dünya çapında patentli GLIDE-TEC® teknolojisi ile akıllı oturma konforu - mükemmel ergonomi!

Sağlıklı ve doğru oturma, aslında koltuğun doğru ayarlanması ile ilgilidir.

Sağlıklı ve rahat oturma pozisyonu için üç temel özellik çok önemlidir:

Intelligent sitting comfort with worldwide patented GLIDE-TEC® technology – perfect ergonomics!

Correct sitting – primarily a matter of adjustment.

Three basic things are very important for a healthy and comfortable sitting posture:

1- Arkalık, ikinci bir sırt gibidir:

Arkaya bütün sırtınız ile yaslanın, bu pozisyonda omurganız ideal oranda destek alacaktır.

Bel ve kalçanın da koltuk arkalığına değmesi gerekir.

1- Backrest as a second back:

Lean with your whole back on the backrest: in this way the whole spinal column is optimally supported. Your bottom should also touch the backrest.

2- Kolçaklar:

Kollarınızı bir yüzeye koyun, koltuk kolçaklarının dirseklerinizi destekle-mesi gerekir.

Çalışma alanınız, kollarınızın altında ve kollarınıza paralel olmalıdır.

2- Armrests:

Rest your arms on the level. The armrests should cradle the elbows, the lower arms rest on the work surface.

3- Oturma yüksekliği:

Koltuğunuzun oturma yüksekliğini ayarlarken, baldırlarınızın koltuk oturağına paralel olduğuna dikkat ediniz (> 90º).

3- Seat Height:

Adjust the seat height so that the thigh rests horizontally on the seat cushion (> 90º).

video

Daha iyi çalışma

Eller çalışma alanında kalır. GLIDE-TEC® hareketinizi korur ve hangi pozisyonda oturursanız oturun rahat çalışmayı kolaylaştırır. İster yaslanarak ister dik oturun, elleriniz her pozisyonda çalışma alanında ve klavye ile temas halinde kalır.

Better working

The hands remain at the work place. GLIDE-TEC® keeps you mov-ing – and simultaneously facilitates comfortable working in any sitting position. Regardless of whether you are reclining or sitting upright: Your hands remain in contact with the writing surface or keyboard in any position.

Daha iyi oturma

GLIDE-TEC®, her pozisyonda sırtınızı destekler. Otururken de sırtınız harekete ihtiyaç duyar. Sağlıklı ve istikrarlı bir omurga, yaslanarak oturma ve dik oturma arasındaki sürekli değişimler ile beslenmelidir. GLIDE-TEC®, benzer-siz patenti ile yaslanarak oturma/dik oturma geçiş hareketlerini sağlar ve her oturma pozisyonunda sırtınızı destekler.

Better sitting

GLIDE-TEC® supports your back in any position. Your back needs movement – also while sitting. After all, a healthy and stable spine is promoted through the constant change between a hollow and rounded back. GLIDE-TEC®, with the unique lordosis/kyphosis pat-ent, enables this movement while sitting and supports your back in any sitting posture.

Daha iyi rahatlatma

GLIDE-TEC®, kas gerginliğini önler. GLIDE-TEC® ile oturularak geçirilmiş uzun bir çalışma gününün sonunda bile formda kalabilirsiniz. Oturma şekliniz ne olursa olsun, yenilikçi aktif oturma teknolojimiz kas gerilmelerini önler. Boynunuz gerilmez ve kafanız her zaman rahat kalır.

Better relaxing

GLIDE-TEC® prevents muscle tension. With GLIDE-TEC®, you remain fit – even at the end of a long working day in a seated position. Regardless of which sitting posture you prefer our innovative seating technology actively prevents muscle tension. The neck is not over extended and always remains relaxed – and your head remains clear.

Dik oturma

Upright sitting

Yaslanarak oturma

Leaned back sitting

İki hareketin düzenli değişimi ile doğru ve sağlıklı oturma!

Correct sitting with healthy, changeable movement!

- **Dik oturma pozisyonunda (Lordosis)**
  - Disklerdeki basınç artar.
  - Diskler arasında eşit bir basınç dağılımı gerçekleşir.
- **Yaslanarak oturma pozisyonunda (Kyphosis)**
  - Disklerdeki basınç azalır.
  - Omurgadaki esneme/gerilme ile diskler beslenir.

Her iki pozisyonda da uzun süre kalınmazsa ve bu değişim düzenli yapılırsa sağlıklı oturma sağlanmaktadır.

- ***With a slight hollow back (Lordose)***
  - *Puts pressure on the spinal discs.*
  - *Equal pressure on the spinal discs.*
- ***With a slightly rounded back (Kyphose)***
  - *Unburdens the spinal discs.*
  - *Allows the spinal discs to have a nutrient flow, since the suction draws nutrients in.*

Both sitting postures are good – if they are not held too long.
